## Areas of Activity

**UDME** and associate specialize in all types of integrated security and technological systems.

**UDME** and associate is a unique company. It's seasoned; highly experienced and skilful professional team of experts can guarantee that potential clients (governments) are provided with an integrated system of security solutions, designed as turn-key project, for the client's size and needs.

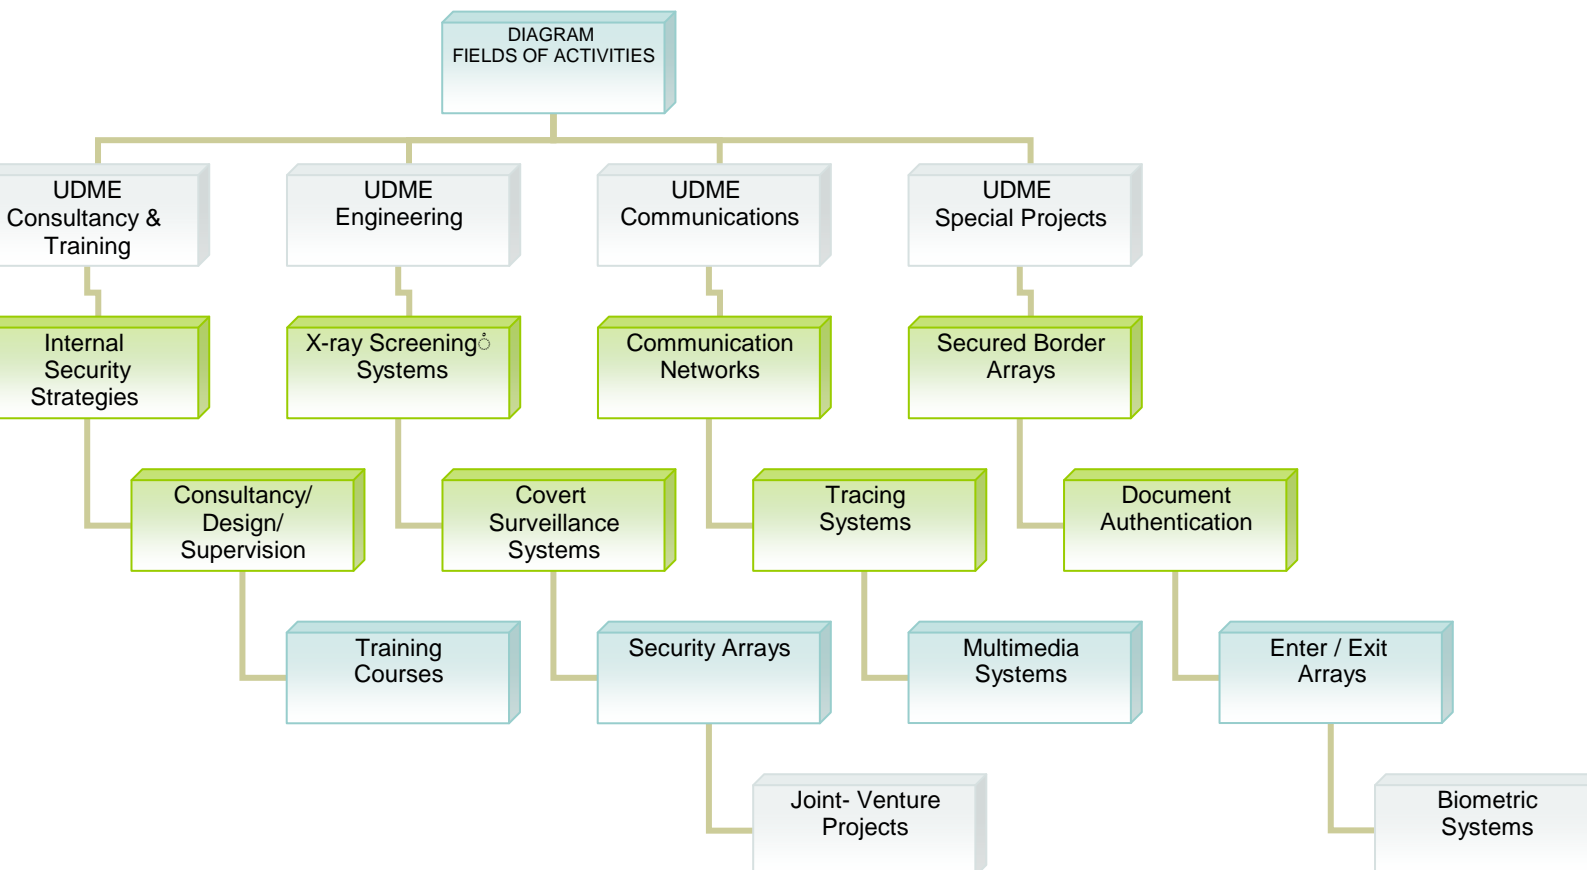

**UDME** and associate operate under seven basic principles:

### **Targeted security:**

**UDME** and associate identify probable threats, analyze risk factors, and focus its effort on high priority threats for the client. This approach allows the group to maximize effectiveness and minimizes costs.

### **Multidisciplinary teamwork:**

**UDME** and associate are capable of responding to any security problem. The specific nature of each project dictates the assignment of team members

## Automatic Document Handling

## High Energy Systems

10 MeV X-ray system. •

Penetration greater than 360 mm (about 1 ft.) of steel •

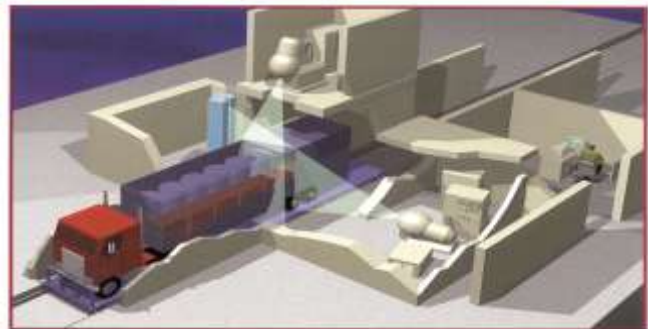

Resolution of 5 mm (2/10ths of an inch) copper wire. •

Dual plane configuration •

Dual energy automated material identification •

Inspects at 34 cm/sec (about 1ft/sec). •

Inspects 30 to 100 containers per hour depending on •  
conveyer system

### Advantages:

- Penetration of Fully Loaded Containers
- Dual Energy Material Differentiation
- Threat Matrix Operator Assistance
- Dual Plane
- High Throughput

## COMPANY EXPERIENCE

Here under is short list of several relevant projects, in which our company and employees were involved:

\* Border control arrays in Asia and Africa

# Border Control Systems

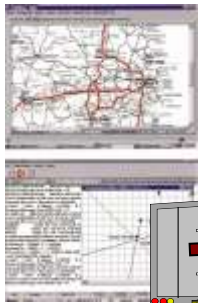

# Universal Defense

Military Equipments

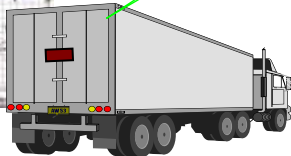

Christopher Trading

Jordan P.O. Box: # 850706, Amman, Jordan, 11185

- \* Formulation of border security doctrines and detailed plans for countries.
- \* Development of special devices for detection of explosives, narcotics and weaponry at borders and borders crossings.
- \* Development and installation of large scale scanning devices for containers and large cargo in international border crossings.

Container Sealing & Tracking

Cargo Screening

Personnel Screening

## Border Crossing Screening Concept

### Secured Wide Area Network

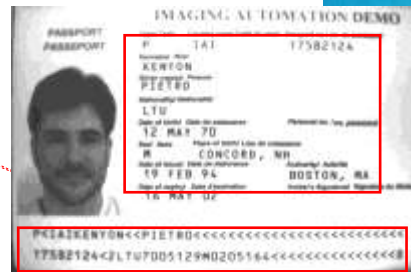

Cargo & Vehicle Identification

Inhibiting Entity

Document Verification and Identification

Personnel Identification
